Sir:

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(c)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(c), Applicant brings to the attention of the Examiner the documents on the attached listing. This Information Disclosure Statement ("IDS") is being filed after the events recited in Section 1.97(b) but, to the undersigned's knowledge, before the mailing date of either a Final action, Quayle action, or a Notice of Allowance. Under the provisions of 37 C.F.R. § 1.97(c), this IDS includes a certification as specified by Section 1.97(e).

The Japanese publication listed in this IDS was first cited in a Notice of Grounds for Rejection issued by the Japanese Patent Office on May 22, 2007, in a counterpart Japanese application, and this IDS is being filed within thirty days of the mailing date of that communication and therefore within thirty days from its receipt by any individual

identified in 35 U.S.C. § 1.56. In accordance with 37 C.F.R. § 1.704(d), no negative patent term adjustment will result from this IDS.

Copies of the listed foreign and non-patent literature documents are attached.

Applicant respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

In lieu of a statement of relevance or translation of the listed Japanese publication, an English language version of the Notice of Grounds for Rejection citing the document and setting forth the relevance thereof is enclosed. In addition, an English-language abstract of the listed Japanese publication is attached.

Applicant notes that that Notice also lists and discusses two additional Japanese publications. These publications were previously submitted as follows:

Japanese Publication No. 11-214373 was submitted with the IDS filed on March 27, 2007; and

Japanese Publication No. 10-064792 was submitted with the IDS filed on February 9, 2005.

Since copies of these Japanese publication have already been submitted, they are neither listed on the attached Form nor are they provided herewith.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and Applicant determines that the cited documents do not constitute "prior art" under United States law, applicant

reserves the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to Deposit Account 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
